DETAILED ACTION

Allowable Subject Matter

1. Claims 21-30 are allowed.
2. The following are examiner's statement of reasons for allowable subject matter:

Referring to claim 21, Niederdrank (US Patent Pub. 20040013280 A1) discloses a method to adjust the parameters of a plurality of hearing aids such that the hearing aids have similar parameters. The Niederdrank reference taken alone or in combination with another, does not disclose, teach or fairly suggest temporarily bringing a first hearing aid, having an acoustic input and an acoustic output and that has been worn by a hearing-impaired person, into active communication with a measurement device that is a separate device from, and is external to, said first hearing aid; from a processor, operating said measurement device to obtain, by said active communication with said first hearing aid, a detected operational characteristic of said first hearing aid that represents overall operation of said first hearing aid between said acoustic input and said acoustic output of said first hearing aid; supplying said operational characteristic of said first hearing aid from said measurement device to said processor and, in said processor, automatically analyzing said operational characteristic of said first hearing aid to obtain an analysis result and automatically determining, from said analysis result, setting parameters for electronic circuitry in a second hearing aid that is to replace said first hearing aid as a new hearing aid to be worn by said hearing impaired person; temporarily placing said second hearing aid in active communication with a setting device that is connected to said processor and that is a separate device from, and is

external to, said second hearing aid; and from said processor, setting said electronic circuitry in said second hearing aid with said setting parameters via said active communication between said setting device and said second hearing aid as recited in claim 21.

Claim 26 has been allowed for the same reason as claim 21.

Claims 22-25 depend on claim 21. Claims 27-30 depend on claim 26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
